**POSitive Touch Crack For Windows**

POSitive Touch is an easy to use POS software that is designed for the restaurants, bars and food outlets. This software is designed to enhance customer interaction. It is powered by a POS system, a USB interface and a high quality touchscreen. It has a PC based POS Control Panel that can be accessed from anywhere and at anytime. This application has a wide range of features such as bar code scanner, delivery van scanner and a POS system that can be integrated. POSitive Touch allows easy and simple order entry with a user-friendly interface. The system is designed to increase the level of customer-services. This application is designed for the bars, restaurants, takeaways and any other type of small business that does not have any online software. It has a wide range of features like a barcode scanner, contact import, SMS send, delivery van scanner and a POS system that can be integrated. POSitive Touch allows you to track sales by food category, customers and transaction detail. All your orders and the payment are entered with your fingerprint. The application allows to accept cash, card payments and make bar deposits. You

---

can control many payment processors using this application. It can also automatically create multiple guest customer accounts and records all the transactions taken by you at the end of the day, or in regular time intervals. Positive Touch Features: Receive and send SMS messages Customer management Goods tracking Order management Card reader Delivery scanner Fingerprint scanner Multi-user access Cash drawer synchronization Barcode scanner and printer Online support Android, iPhone and iPad File Transfer Search for Files Multiple Options Hotels - Management System Hotel management software for the hotel industry has been specifically designed to manage the guest list, the reservation system, the work flow, the expenses, the electronic payments, the check in and check out system, the reservation, the barcode reader and the cashier. This simple and powerful system allows the hoteliers to store all the data, use online booking software and charge payment to the customers in the POS. In addition, the front desk customer service people can use the system to perform basic tasks like updating the guest list, checking in and checking out the guests. This is basically a small to medium sized hotel manager software, which allows the hotelier to book the rooms, update the guest list,

---

view the reservation, update the bills, view the

#### **POSitive Touch (LifeTime) Activation Code**

POSitive Touch is a simple and easy to use product application for the use in the business of providing the service of gathering the orders and making the payments. The interface designed for personal computer is easy to learn, use and manage. The interface can be easily transferred to other computers, as there is no special software and configuration is required. The user can start scanning or collecting the orders for the next day. You can enter the number of the orders collected and the sales in the shops in the day. You can also set the limit of the orders, the price of the product and the commission for the orders. You can also save all the transactions for a week and export it to the excel file. The transaction received and the payments made are stored in the memory of the computer. You can export them on a daily, weekly, or monthly basis. So the user can keep track of the products sold and make necessary adjustments in the pricing and the commission in the next day. This program allows to easy management and control of the operations of the business. You can also

---

export the memory of the products and the transactions. You can easily change the limit, commission, and limit the order. If the software is correctly configured, then the orders collected and the payments are entered automatically and reflected in the computer and on the labels of the cartons. If you miss the pre-defined program options, you can make changes and manage the application for the most suitable ways. The user can easily interact with the customers with the help of the dedicated options available in the interface. It is easy to maintain, as there is no need to download the software for updates and upgrades. POSitive Touch Features: Export all the information to the excel.
